

Ideation Phase

Define the Problem Statements

Date	28 September 2026
Team ID	SWTID-2026-5454
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe customer with 3-4 key characteristics - who are they?	Describe the customer and their attributes here
I'm trying to	List their outcome or "job" the care about - what are they trying to achieve?	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way - what bothers them most?	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists - what needs to be solved?	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view - how does it impact them emotionally?	Describe the emotions the result from experiencing the problems or barriers

Example:

I am a traveler	I'm trying to book flights on my phone	But it takes a long time	Because The website is not responsive and doesn't have a mobile version	Which makes me feel Frustrated
--------------------	---	-----------------------------	--	-----------------------------------

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
------------------------	-----------------	---------------	-----	---------	---------------------

PS-1	IT procurement team member	streamline standard laptop ordering and ensure configuration tasks are created automatically after approval	standard laptop requests require configuration, and the configuration step can be overlooked or delayed	the current procurement process involves manual intervention for configuration task handling	frustrated by delays and manual effort in the procurement process
PS-2	employee requesting a standard laptop	receive a standard laptop that is configured promptly after the request is approved	the configuration task may be delayed when it is not handled promptly after approval	the current process does not automatically generate and assign the configuration task to the Hardware team	concerned about waiting longer for the laptop to be configured and delivered
